

## Petersburg: The Other Side

### A Documentary of KY's Most Haunted Town

About the  
Petersburg project:

*In January 2011 PINK, (Paranormal Investigators of Northern Kentucky) investigated a private residence in Petersburg Kentucky.*

- The evidence collected has prompted us to seek out others from the Petersburg community who suspect paranormal activity or who may be curious to know if their residence would reveal paranormal findings. The results gathered by PINK for this project will be combined with historical research in an effort to explore the connection. Undisputed findings may be considered for a documentary.

Please take a moment to check out our web page or learn about **PINK** and its research members. If you are interested in having your residence investigated please contact us. **We would love to hear from you!**
